Overview:
Didube is the primary and largest of Tbilisi's three *vagzali* and is located at the lower exit of the metro. Didube predominantly serves all regions of Georgia except Kvemo Kartli and Kakheti. Didube *vagzali* is a complex area composed of seven general zones where marshrutkas can be found, which is shown on the map on the previous page.

Methodology:
For multi-stop destinations, we alphabetized according to what we consider to be the largest and/or main stop.

This was merely our attempt to help organize a very confusing marshurtka area. There are surely lapses in the information we gathered. If you can help us fill those gaps, let us know!
